27/05/1997 Casablanca 

Objective

I am transitioning from a background in Economics and Management to pursue a career in Front-End Development. I am looking for an entry-level role where I can utilize my analytical skills and combine them with my passion for coding. I am eager to create compelling digital experiences and I am excited to embark on a journey of continuous learning and innovation in the field of web development.

Work Experience

Call Center

06/2022 - 02/2022

Liceria & Co. | 123 Anywhere St., Any City

In the call center, I conducted outbound calls to offer online courses for purchase, communicating details, pricing, and enrollment processes to secure registrations. This sales experience cultivates communication, problem-solving, and adaptability skills relevant to front-end development, informing user-centric design decisions and enhancing interface engagement with insights gained from sales interactions.

Library

07/2020 - 09/2020

Liceria & Co. | 123 Anywhere St., Any City

"In my role at the library, I engaged with patrons to introduce educational tools and resources, effectively communicating the features and benefits of various materials. This experience has equipped me with valuable communication and interpersonal skills, along with a commitment to enhancing user experience, all of which are beneficial qualities for a front-end developer."

Education

Baccalaureate degree in Life and Earth Sciences

2015 - 2016

Ed-dakhla High School in Casablanca

University Degree (Bachelor's) in Economics and Management

2020 - 2021

The Faculty of Economics, Legal, and Social Sciences in Sbaà
